

doubler.cc

Crypto Engineering Limited is a crypto currency investment and Altcoin, Bitcoin Mining company who has opened it's doors to general public. Offering profitable investment solution to everyone. Our team consists of Cryptocurrency miners, traders, developers and just general enthusiasts with over seven years of hands-on experience.

Our focus is on automated systems with artificial intelligence which work 24/7 in various market trading. We have already developed artificial AI algorithm to successfully trade into crypto, forex, betting and exchange market with booking the profit in very short term, You could say it's a money machine that never stops raising funds for you! The AI Trading Bot captures the best investment opportunities in the all the market by solving complex algorithms and automatically opens positions. By using different trading tools and analyzing the price history, it usually achieves optimal profits.

As we have multiple income streams. It is a vast possibility to make daily profit to ensure return to our investors. We are working on many other innovative solutions in the financial industry and will provide you many more beneficial products

Our Team of expert includes Crypto currency trader, Forex trader, Betting Exchange Trader and Developers with many years of expertise. Together they are improving the AI Trading bot everyday. Diversifying it's income solution through proper researches.

We have virtually unlimited opportunities in our industry and offer everyone who wants to join the profitable activities of cryptocurrency trading. Our Mining equipment works around the clock and non-stop. If we detect the failure of one of the components of the system leased to our investor, we promptly switch it to another, 100% working equipment, so that the mining of cryptocurrencies does not stop for a minute, and the depositor does not lose its profit due to unforeseen downtime.

High-performance mining equipment of the company is regularly updated and expanded. All technical aspects are carried out by our professionals and our investors are free from all routine tasks for the acquisition, configuration, maintenance and repair of technical equipment.

Association of investors with innovative thinking that have implemented many successful cases. They see a prospect in those projects that the masses find out only years later. By investing in a certain sphere, they not only develop it, but also earn millions of dollars from it. Understanding the prospects of doubler.cc they are investing in the market, which is already worth \$ 200 billion, growing every year and which we can manage together!

To control something is to foresee it. That is why we created a self-learning trading network. Doubler.cc AI allows you to make successful trading transactions every second. The innovative trading system, which is based on constantly self-improving AI, allows the Doubler.cc community to anticipate the market situation and always be one step ahead. Together with our developer and experienced trader we have developed, AI neural network.

The neural network is an "interactive brain", with a set of algorithms for classification and forecasting, analyzing market indicators, the behavior of large market-makers and trading robots. Verifies previously made hypotheses and creates new ones, which ensures continuous learning and reduces risks to a minimum.

These are self-learning robots that implement trading strategies based on previously collected data from our AI-Trading analytics. They control the bets made by other market participants and their relationship to the total amount of funds on the site

Doubler.cc is an industry leading Bitcoin mining pool. All of the mining power is backed up by physical miners. Mining with the latest algorithms allows to make as much Cryptocurrency as possible. We aim to provide you with the easiest possible way to make money without having to do any of the hard stuff.

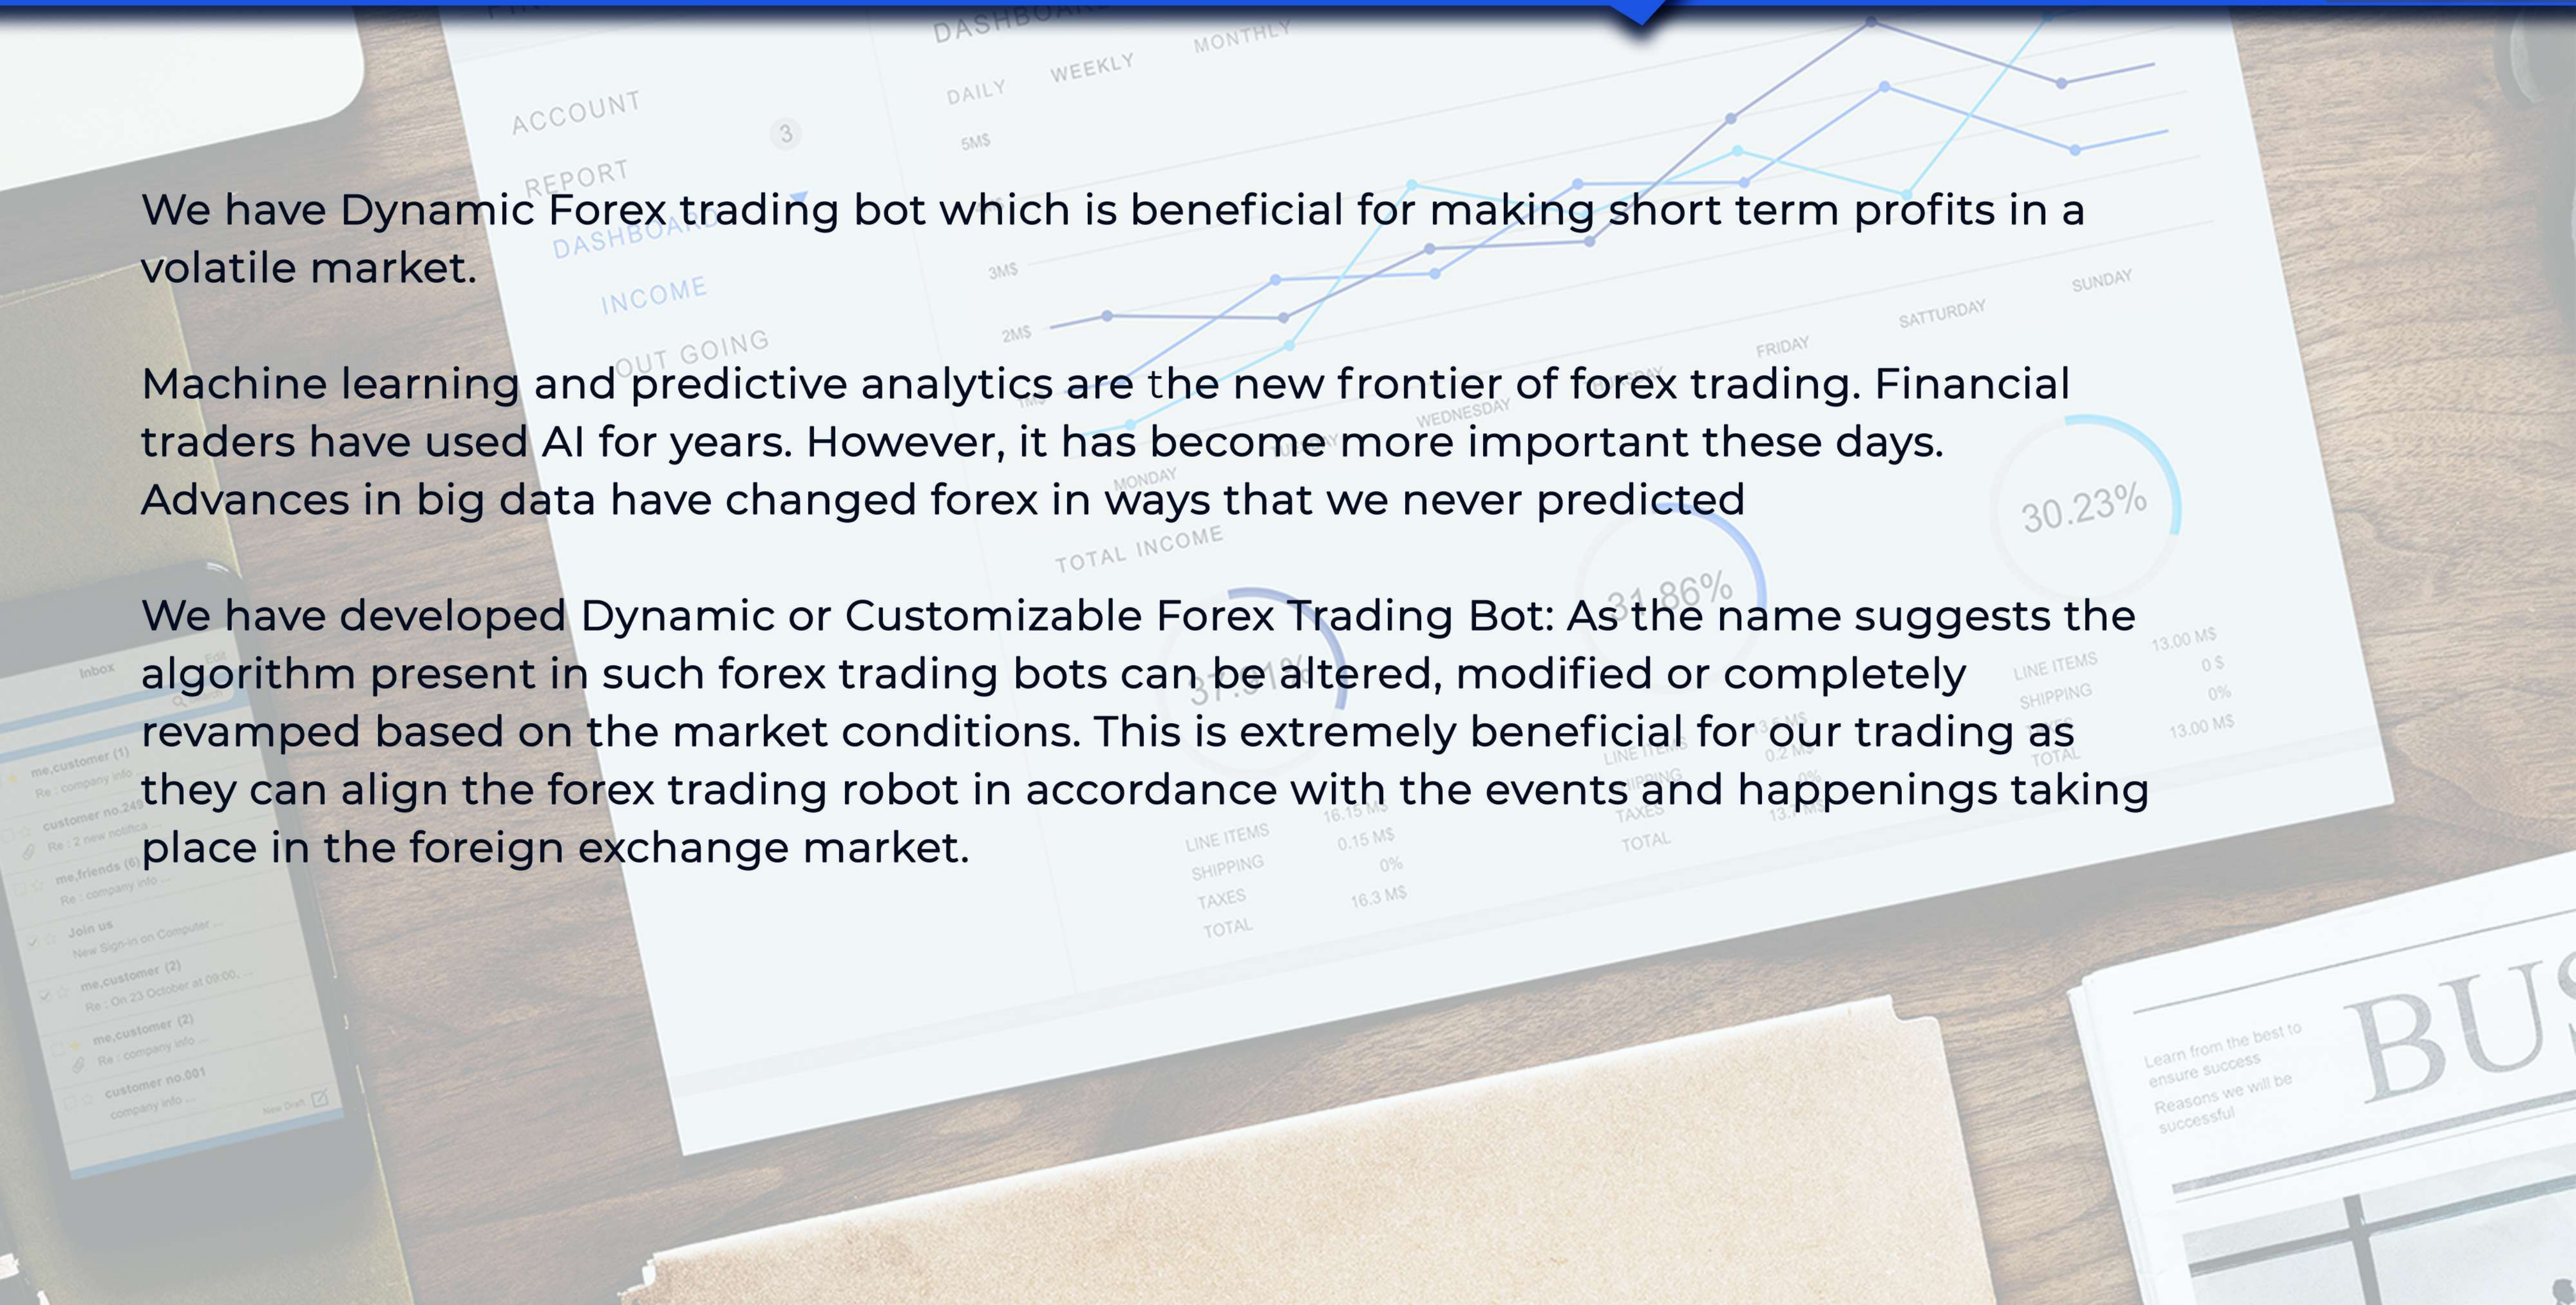

With data centers around the globe, we aim to keep bills down and mining power high, meaning you can make more in a shorter amount of time than what it would take to mine from your home for instance. Our data centers are located in Europe and Asia with dedicated Up-Links and 99% uptime!

We also mine various other Altcoins times to time to make sure profitable return of investment to our investors.

We have Dynamic Forex trading bot which is beneficial for making short term profits in a volatile market.

Machine learning and predictive analytics are the new frontier of forex trading. Financial traders have used AI for years. However, it has become more important these days. Advances in big data have changed forex in ways that we never predicted

We have developed Dynamic or Customizable Forex Trading Bot: As the name suggests the algorithm present in such forex trading bots can be altered, modified or completely revamped based on the market conditions. This is extremely beneficial for our trading as they can align the forex trading robot in accordance with the events and happenings taking place in the foreign exchange market.

We have also developed an AI trading bot for betting exchange marketplace. It is a marketplace for customers to bet on the outcome of discrete events. Betting exchanges offer the same opportunities to bet as a bookmaker with a few difference. You can buy (also known as "back") and sell (also known as "lay") the outcome. Our trading bot trades in real time throughout the event and locks the profit Thus enabling us to turn sports betting into Risk-Free Money making tool.

Our AI betting bot, uses matched betting system to use of bookmaker's best odd to open multiple back and lay position automatically and to lock-in profit.

A system which only the major investors used has been made accessible for any kind of investor. The high-developed AI Trading Bot has been sold for a lot of money to only major investors so they can generate a passive income and new income streams.

It has been very beneficial for our clients and also beneficial for our company as the demand was increasing explosively and the product has been sold very expensive. But after a long thinking the team has decided to change this product to a service and make it accessible and usable for any kind of people - not only major investors - so also people without many funds of cryptocurrencies have the ability to increase their income and generate new income streams.

Doubler.cc offers you three different investment packages depending on the amount of investment. You can invest in 6 different cryptocurrencies (BTC, LTC, ETH, DASH, BCH, DOGE) and 2 other popular payment system like Perfectmoney and Payeer. We are in process for adding other popular cryptocurrency in our platform.

The three different packages are divided into Standard, Business and VIP. The more you invest in the system, the higher the daily return and the faster you reach ROI. We provide from 3.33% daily return to 6.66% daily return depending on your packages. Returns are credited from every 3 hours to 12 hours as these trades are more short-term based. The return on VIP is much higher and more long-term. With VIP you get the returns every 12 hours.
